

io backup

## Backup and Archive to the Cloud With Efficiency and Scalability

Customized backup of creative assets, application data and Virtual Machines in IO Space™

### Backup and Archive Creative Content With IO Backup

IO Backup is a data backup and archive solution for disaster recovery and business continuance purposes. By providing an all-purpose, enterprise-grade backup application, IO Backup delivers simple, reliable, user-defined schedules that back up to cloud destinations like IO Object Storage (no more tapes).

Paired with IO Space™, IO Backup gives your Creative Operations team the capability to swiftly and cost-effectively meet off-site backup specifications.

#### Flexible Backup Service Options Include:

**On-Prem:** Backup local/on-premise servers and data

**Cloud:** Backup cloud-hosted servers and data

**SaaS:** Backup SaaS application data

### Reliable and Cost-efficient Unmatched Service

#### Future Proof

IO Space infrastructure is always up to date with the latest technology.

#### Scalable and Cost Effective

Leveraging Object Storage, IO Backup is a dynamically scalable solution that allows you to only pay for what you need.

#### Integrate With Any Solution

Connect IO backup to any of your existing systems, either on-prem or in the cloud.

#### Administer Backup and Archive Data from Anywhere

Supports multiple locations with a single user account from the IO Backup management console. Reliable global network allows you to access your backed-up data from anywhere.
